(a) Joint chloride refit
calibration

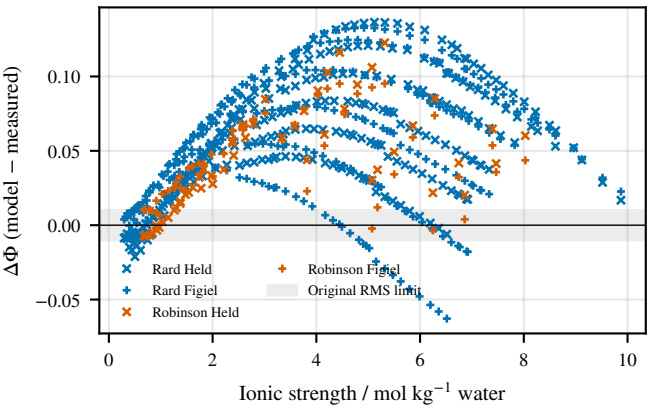

(b) Joint chloride refit
prediction

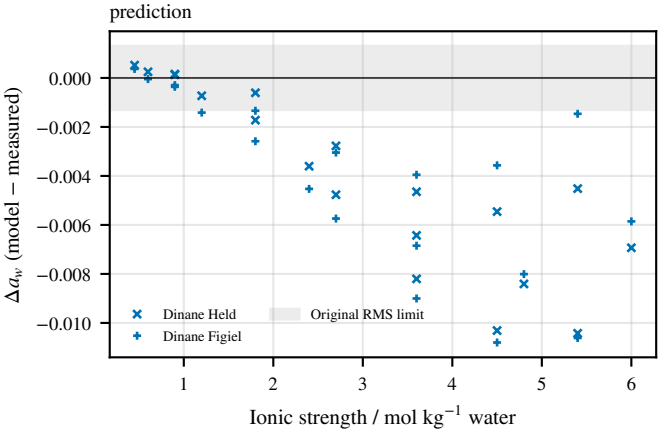

(c) Joint chloride refit
prediction

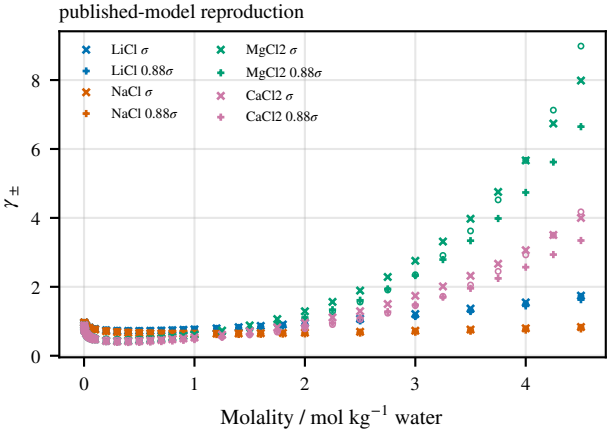

(d) Unchanged parameters
prediction

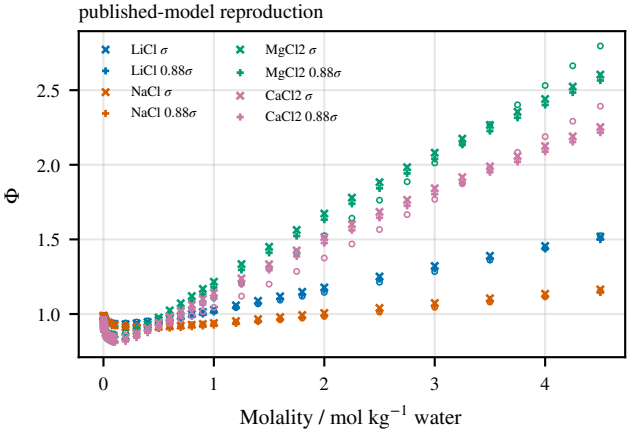

(e) Unchanged parameters
prediction

(f) Divalent and 1:1 limits
published-model reproduction

(g) Divalent and 1:1 limits
published-model reproduction

Open symbols: measurements or references; crosses: discrete model evaluations; lines: continuous model calculations.
